

Materials for Astronomy Unit

Book 1- <i>A Pig is Big</i> Optional Rhyming Cards	2
Book 1 (Alternative to <i>A Pig is Big</i>)- <i>I Am Big But Not the Biggest</i>	3
Dramatic Play Center: Observatory	
Planet Posters	17
Book 5- <i>On the Launch Pad</i> Rocket Counting Cards	21
Book 6- <i>Sleepy Solar System</i> Solar System Booklet	25
Book 8- <i>Birthday on Mars</i> Rover	33
Book 9- <i>Kitten's First Full Moon</i> Craft Template	34
Book 10- <i>Ten Twinkly Stars</i> Star Counting Cards	35
Book 14- <i>Henry's Stars</i> Constellation Cards	37
Book 18- <i>Small World</i> Craft Template	42
Wordless Book- <i>Delivery</i> Sequence Cards	43

Book 1 - *A Pig is Big* Rhyming Cards

pig, big truck, duck street, feet

I Am Big But I'm Not the Biggest

Text by The Project Ready! Team

Illustrated by Maddie Taylor

This is me. I am big. I am bigger than my baby sister, but I'm not the biggest. What is bigger than me?

This is my house. It is big. It is bigger than me, but it's not the biggest. What is bigger than my house?

This is my town. It is big. It is bigger than my house, but it's not the biggest. What is bigger than my town?

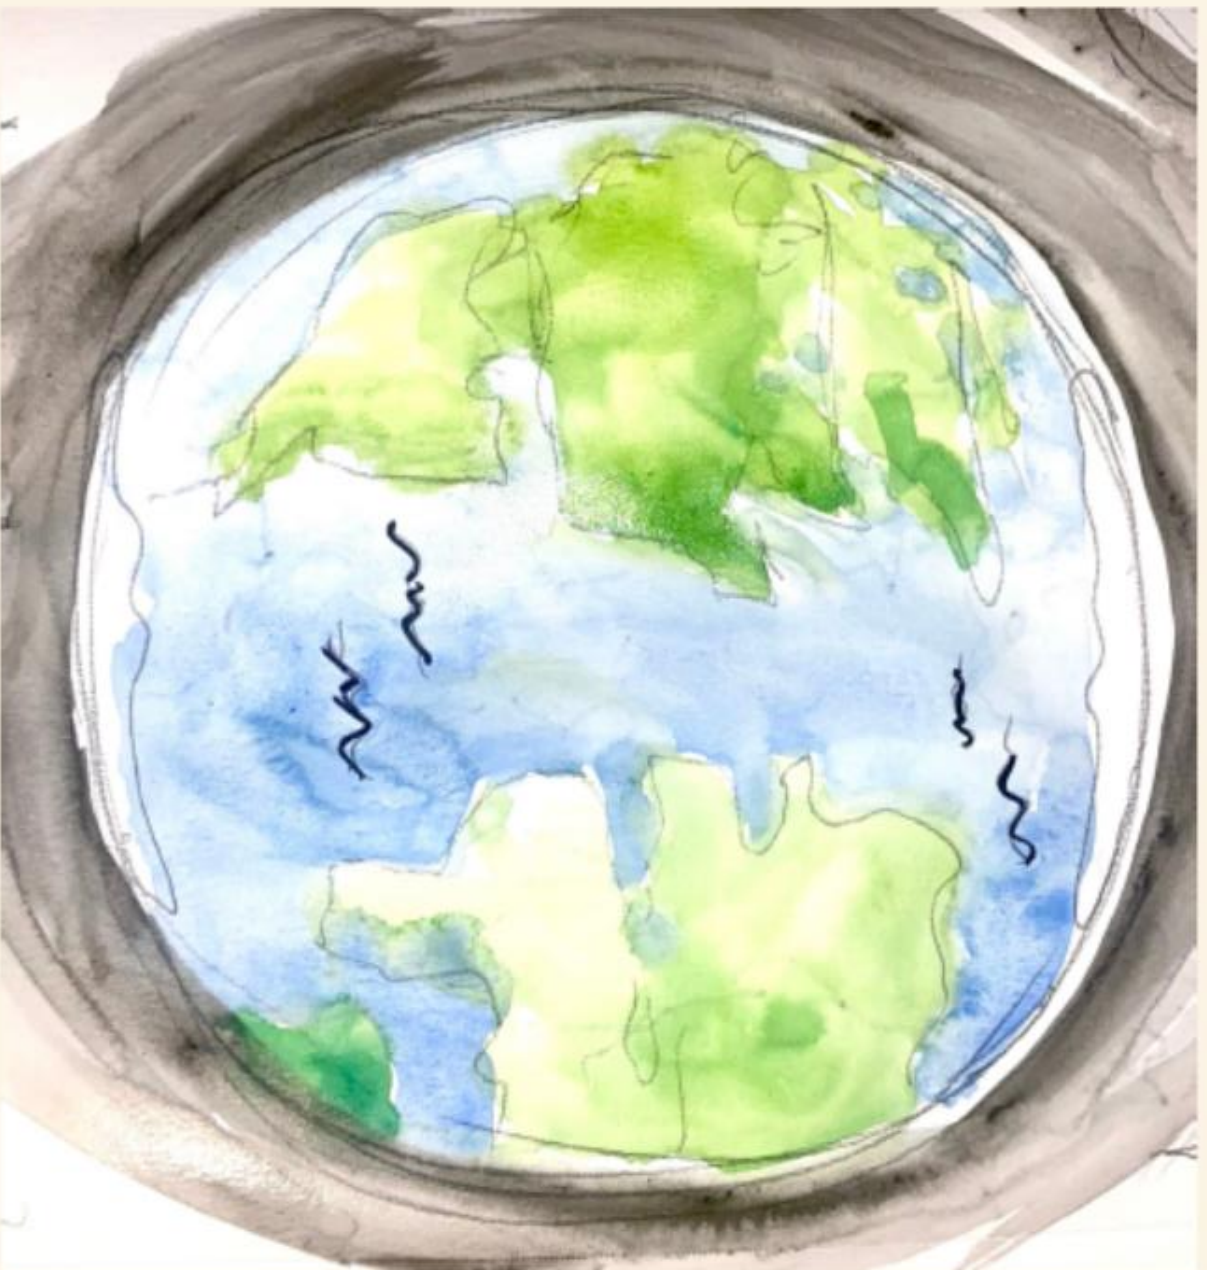

This is my state. It is big. It is bigger than my town, but it's not the biggest. What is bigger than my state?

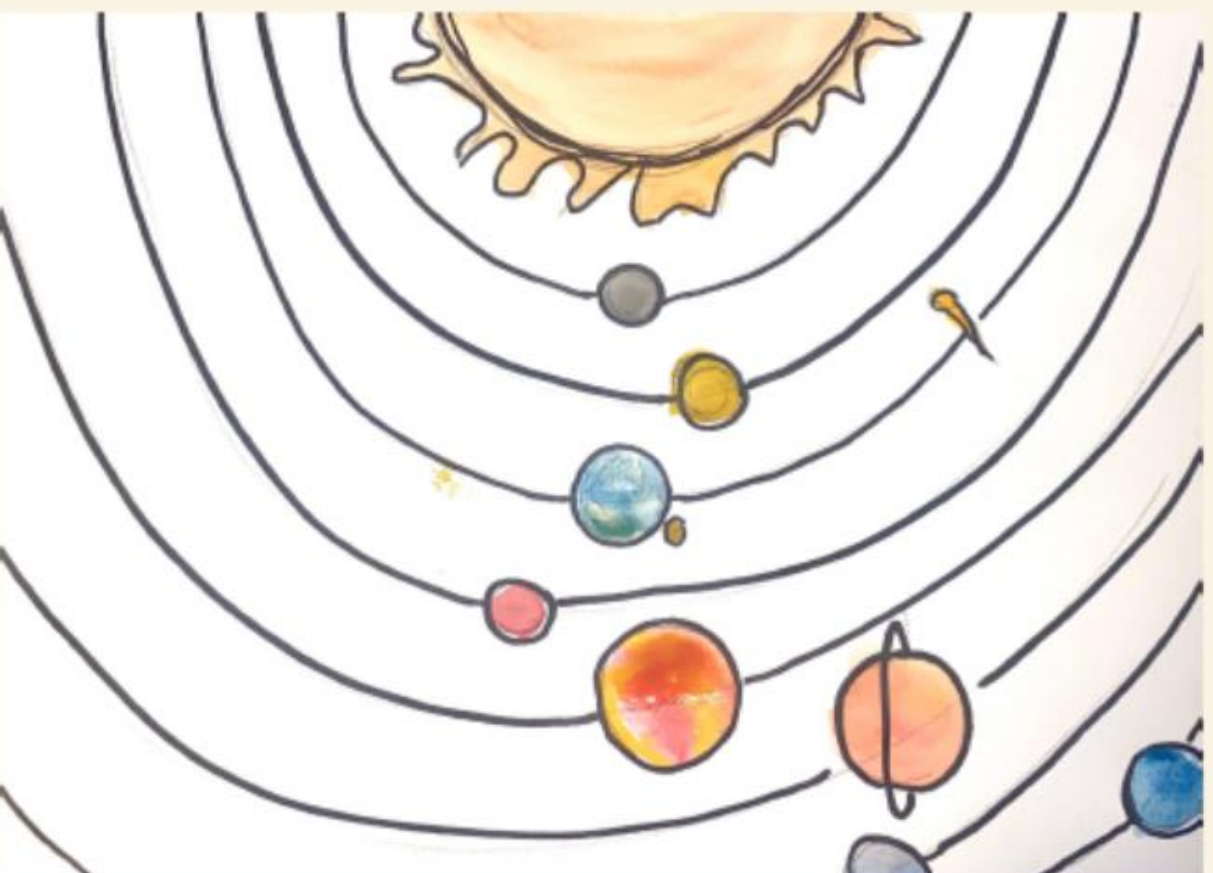

This is my country. It is big. It is bigger than my state, but it's not the biggest. What is bigger than my country?

This is my continent. It is big. It is bigger than my country, but it's not the biggest. What is bigger than my continent?

This is my planet, Earth. It is big. It is bigger than my continent, but it's not the biggest. What is bigger than my planet?

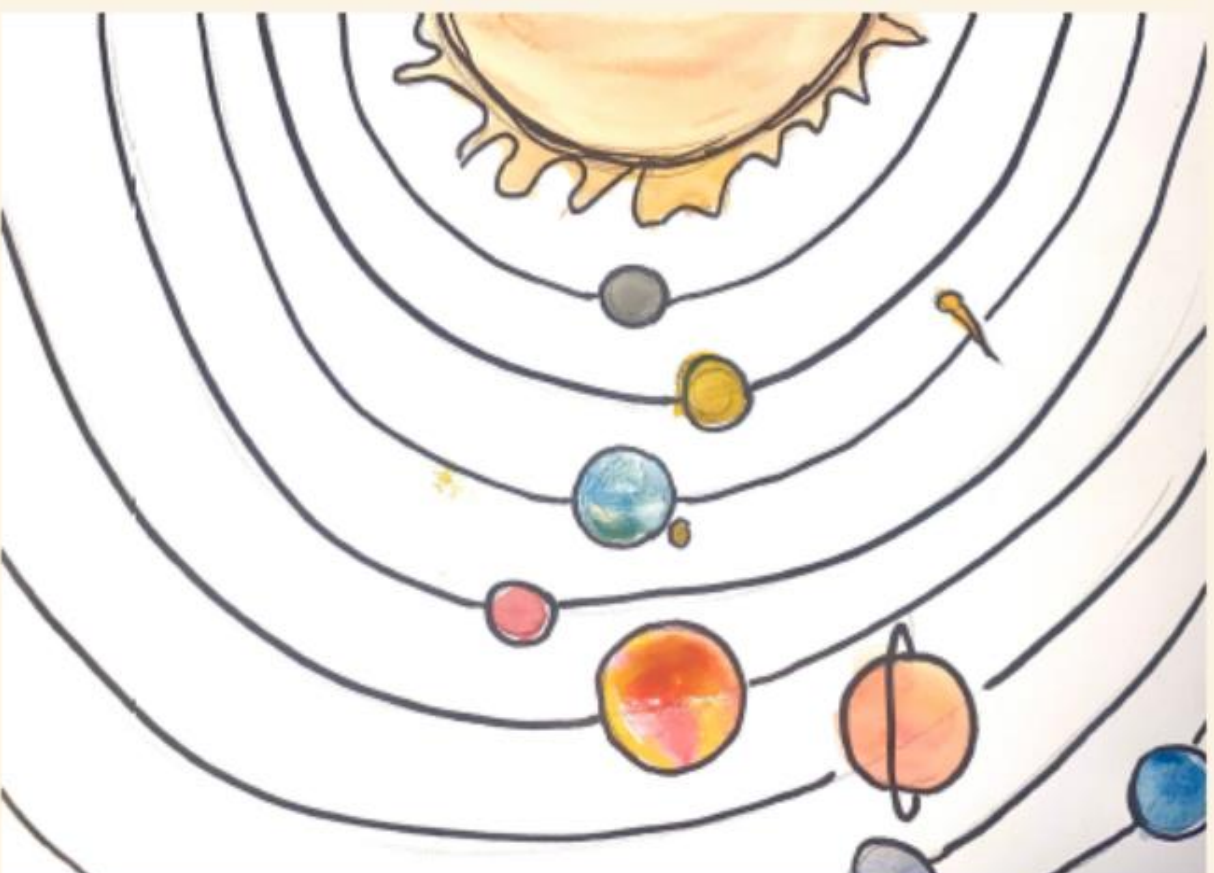

This is my solar system. It is big. It is bigger than my planet, but it's not the biggest. What is bigger than my solar system?

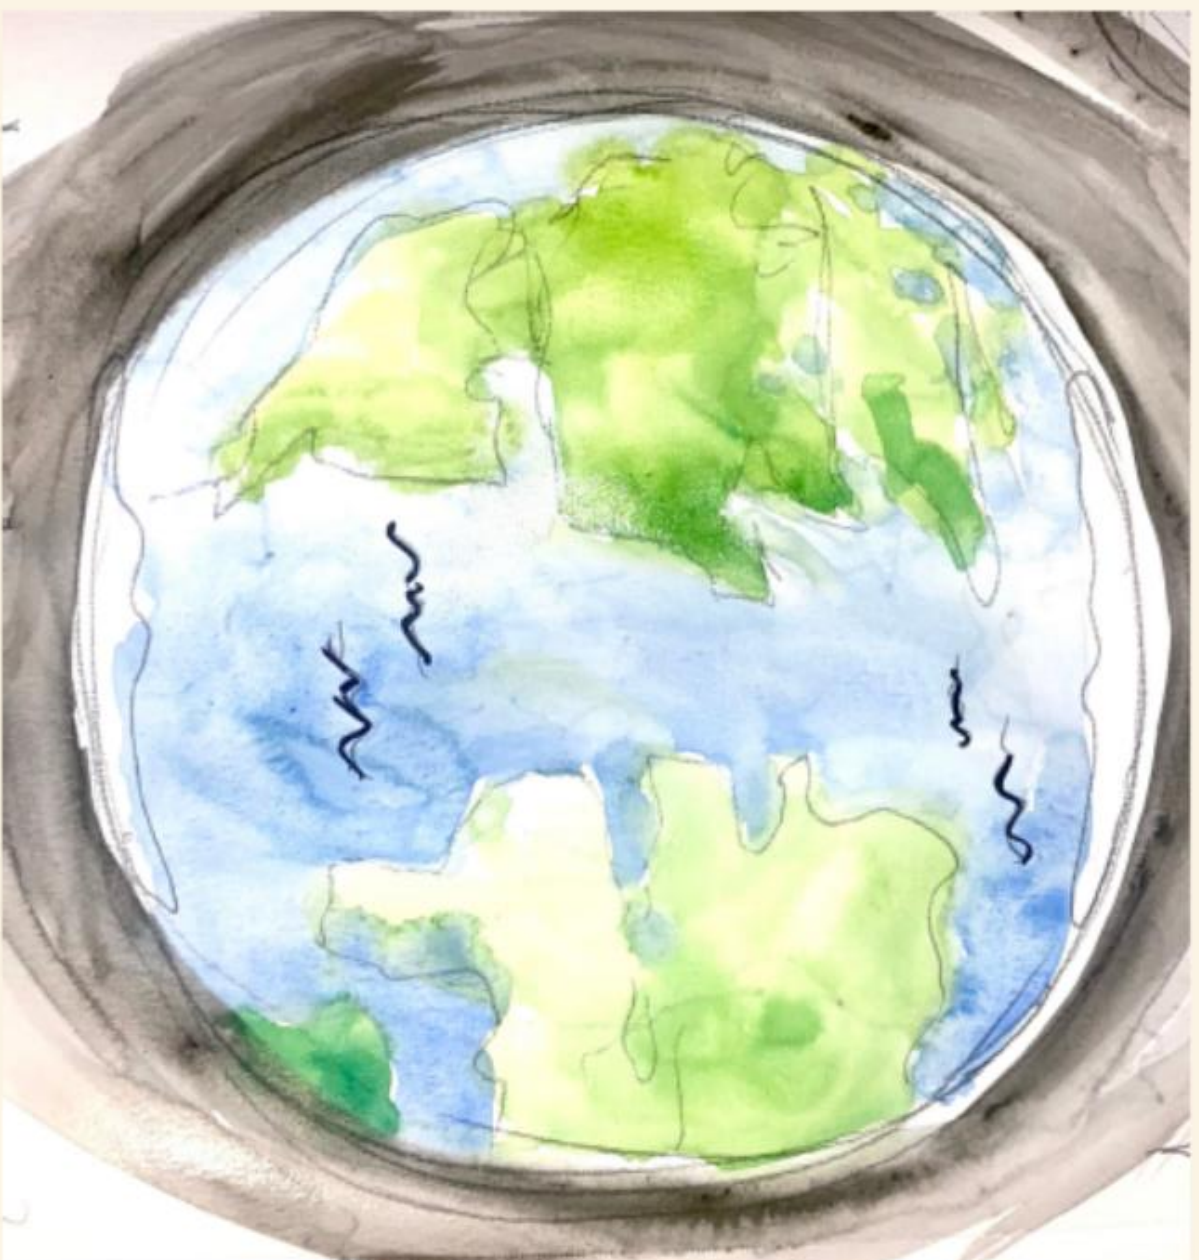

Is there something bigger than the ENORMOUS solar system?

Yes! This is the universe. The universe is bigger than everything!
The universe is the biggest thing of ALL.

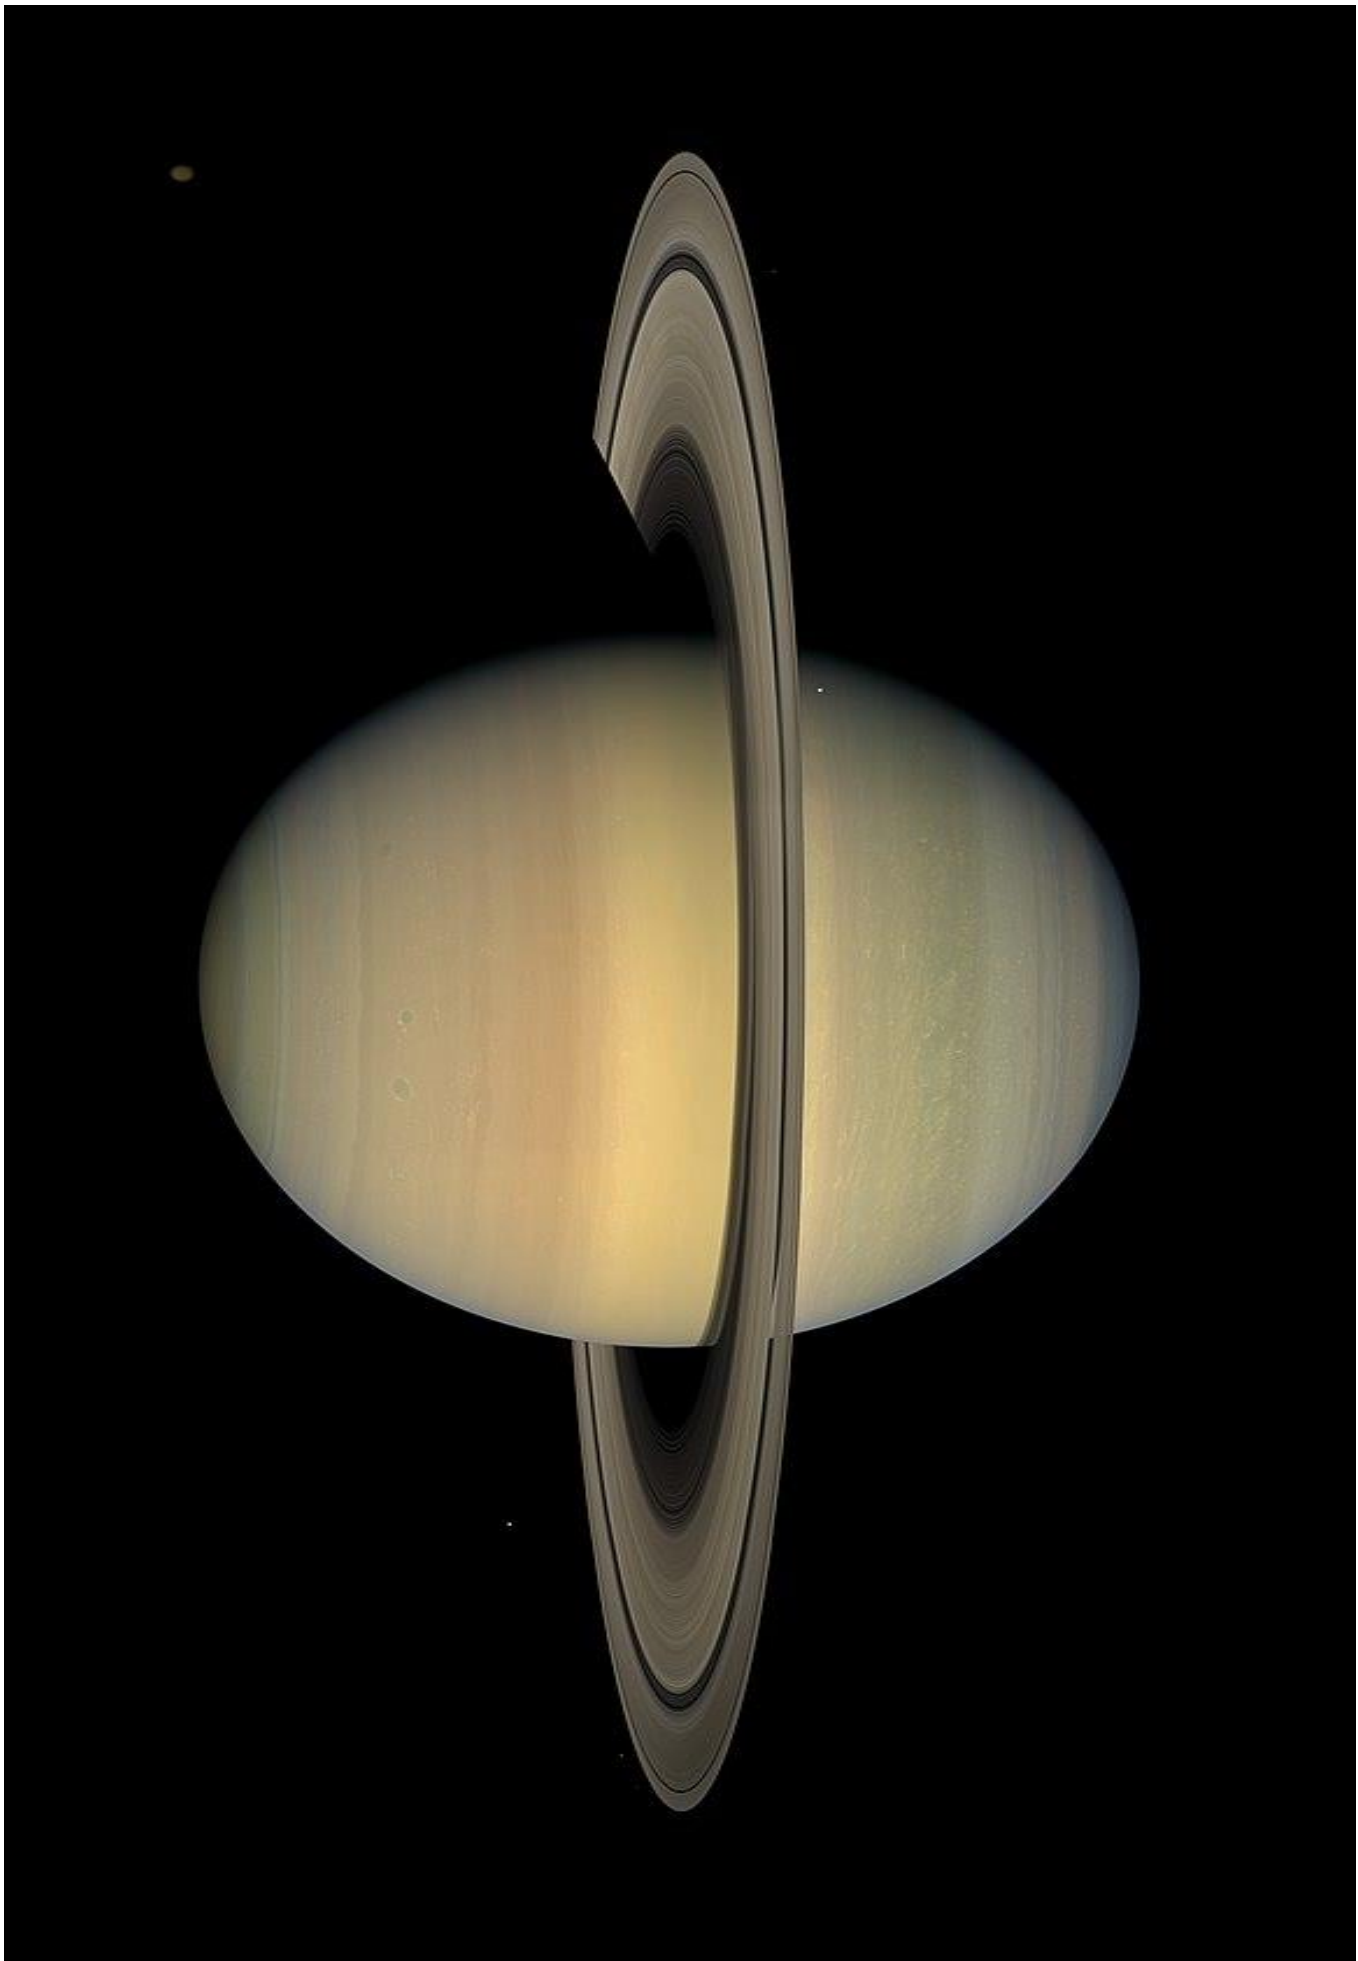

Inside the universe is a small solar system.

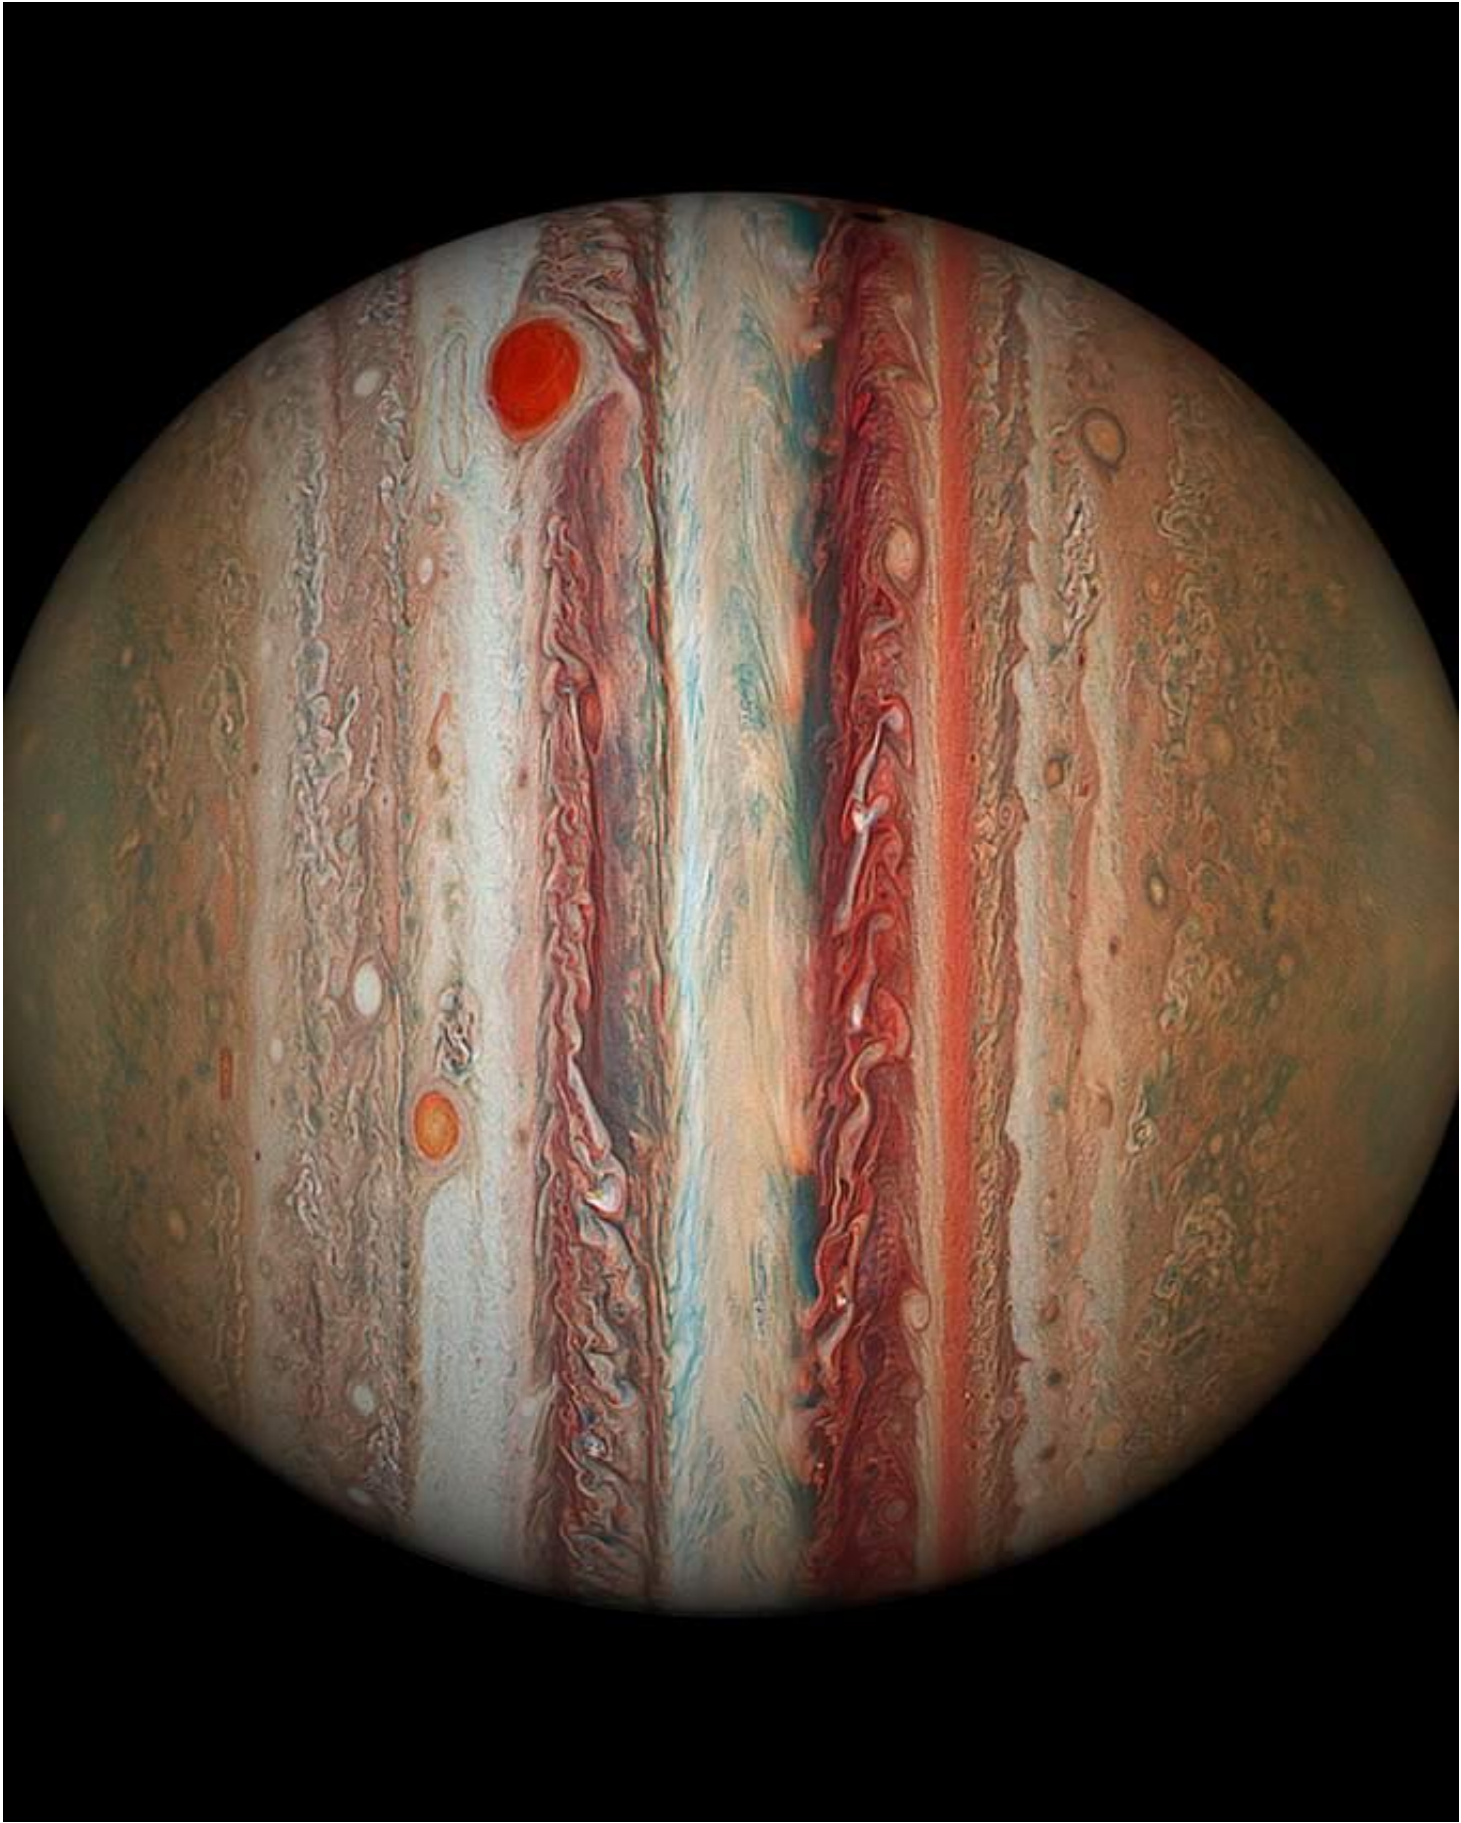

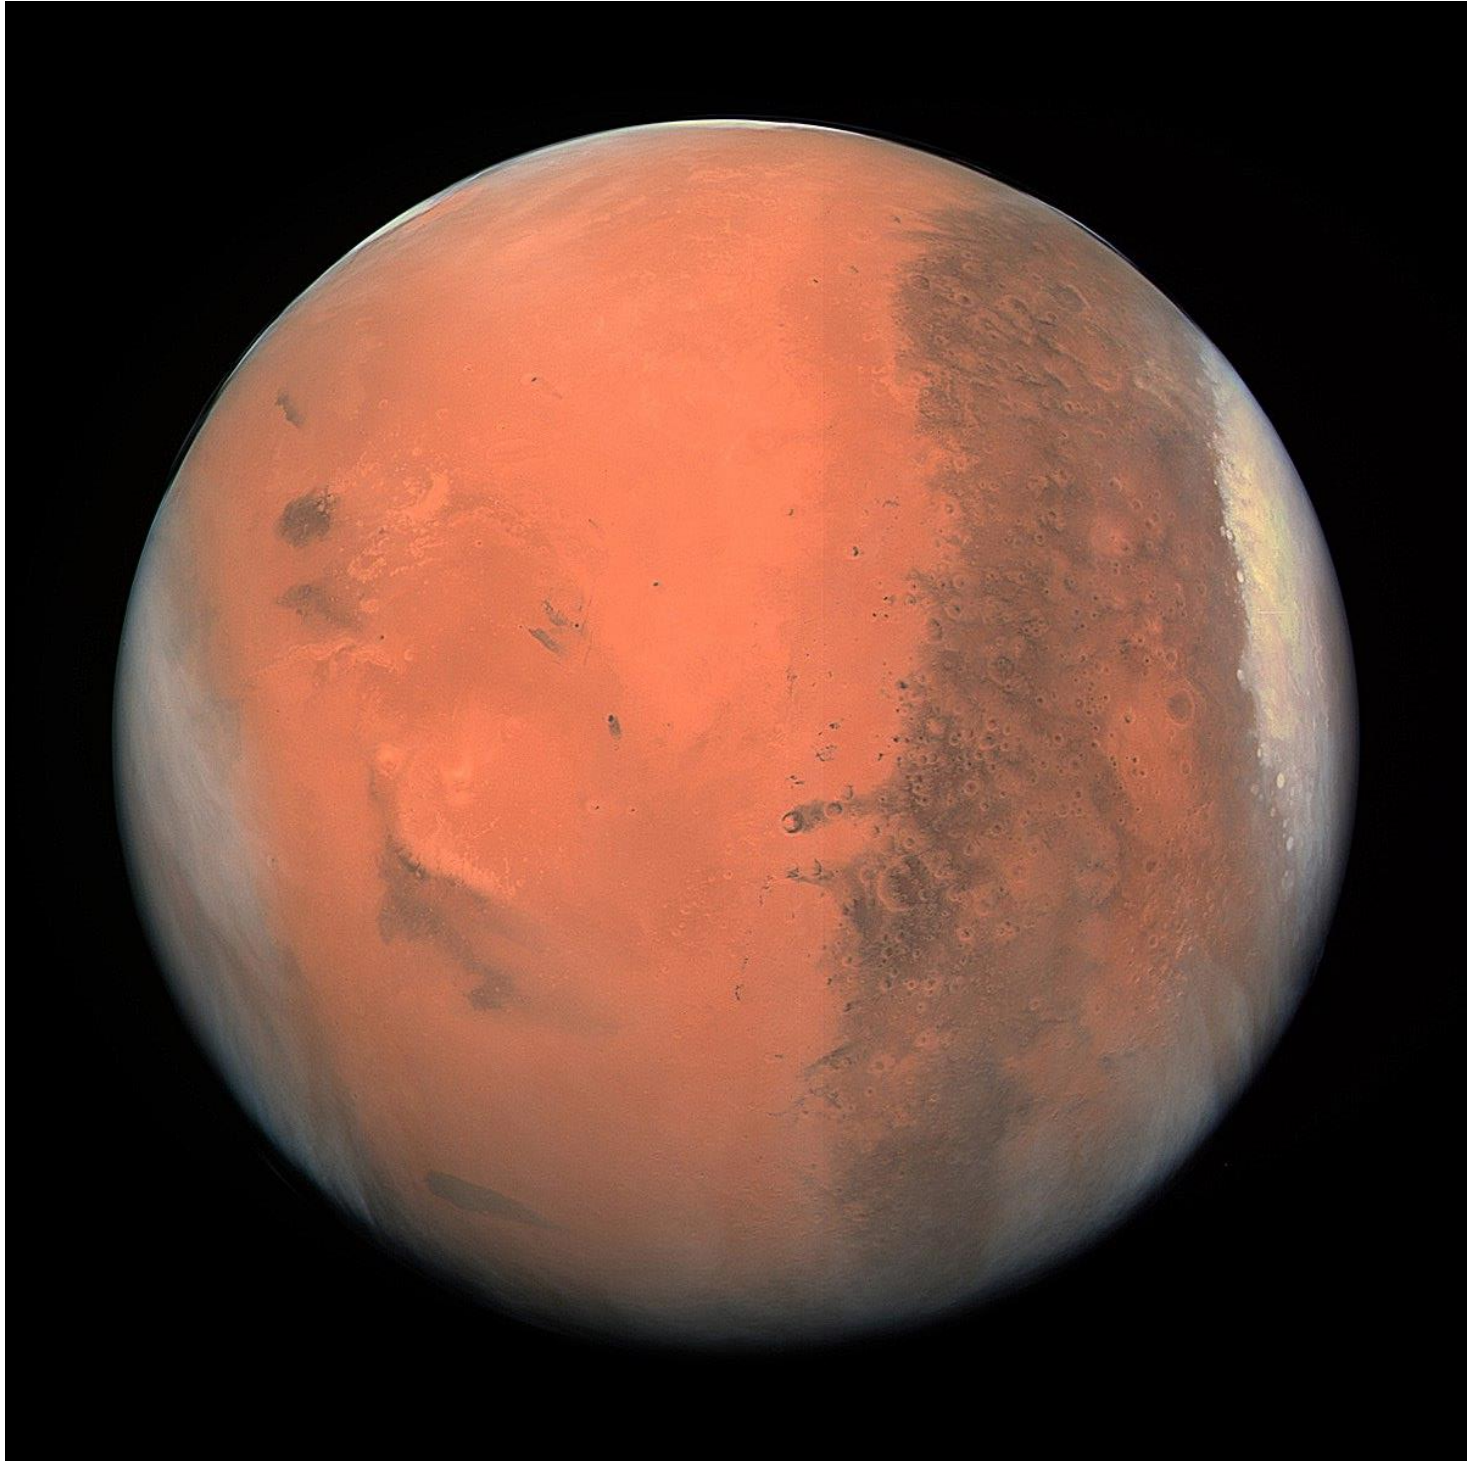

Inside the solar system is a smaller Earth.

On the smaller Earth is my little sister. She is the smallest of ALL.

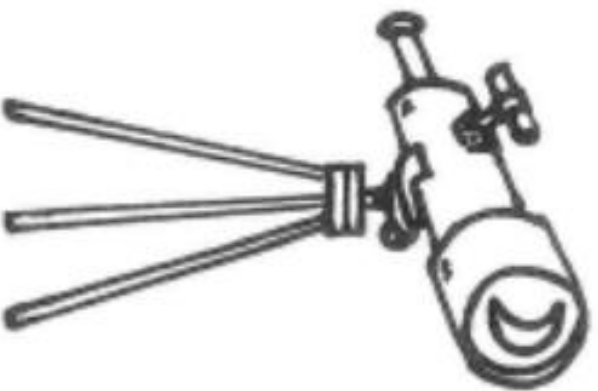

Name _____

The Solar
System

Sun

My Planet
